

# ALL-GRASS PASTURE & HAY MIX

**DESIGNED FOR CONTINUOUS & MAXIMUM SEASON-LONG FORAGE PRODUCTION & QUALITY**

## MIXTURE COMPONENTS:

- **25% Orchardgrass** – Rapid Growth, Season-Wide Production, Heat & Drought Tolerance, Highly Digestible
- **25% Endophyte-Free Tall Forage Fescue** – Excellent Spring Vigor, Drought Tolerance, Heavy Forage Yielder, Highly Palatable
- **20% Perennial Ryegrass** – Cool Season Growth, Traffic & Grazing Tolerance, High Forage Quality, Early Vigor for Big Yields, High Forage Quality
- **20% Timothy** – Excellent Winter-Hardiness, Quick Establishment, High Forage Quality
- **10% Festulolium** – Persistence, Winter-Hardiness, High Quality Forage & Palatability, Grazing & Traffic Tolerance

**\*\* Can also be inter-seeded into winter-killed or thinning alfalfa stands to increase stand-life \*\***

 Rapid Establishment

 Excellent Seasonal Growth

 Superior Yields

 High Quality Forage

 Very Digestible

 Extremely Palatability

<u>Growth Habit</u>	<u>Estab. Rate Days</u>	<u>Nitrogen Required</u>	<u>pH Range</u>	<u>Dry Matter Yield Tons</u>	<u>Re-Growth</u>	<u>Pure Stand Seeding Rate</u>	<u>Inter-Seeding Rate</u>
Perennial Bunch Type	7-10	30 – 50 lbs. Per Cutting	5-8	4-8 Tons Per Acre	Very Good	30-40 lbs. Per Acre	15-20 lbs. Per Acre
